I am on the 207 553-0775. Should I change lines? I do have some good news on resources.

Subject: Today's call and tech team extension

Hi Everyone - sorry for this late message. We have our call in 5 minutes for CZARA where the managers want to talk about options for penalties. For the tech team, we have to get the managers our final date on the extension. I'll ask you this on the call today, but would you all rather listen in on this call or get another line and have the tech team talk on the extension? I don't have a preference other than to make sure we're all comfortable with the date we're giving to the managers on how much time we need. Allison's email attachment is helpful.

The alternative is for us all to stay on the line for the penalties talk and either schedule another meeting to finalize the extension date or do everything by email.

Thanks,
Jenny Wu
